

Teradici PCoIP® Solutions

Teradici technology is the fabric of the virtual workspace. We power the spectrum of local, remote, mobile and collaborative workstyles, fundamentally simplifying how computing is provisioned, managed and used.

Teradici PCoIP® technology is deployed throughout virtual and cloud environments, in zero clients, hardware accelerators, standalone workstations and mobile devices. Simple, green, and cost-effective, the Teradici PCoIP virtual workspace architecture delivers a secure, high-definition, highly responsive computing experience.

Teradici customers benefit from a broad PCoIP ecosystem of innovative products and services. Our customers include Fortune 500 enterprises and institutions around the world, local and federal government agencies, and cloud and service providers.
